

ROSHAN RAJ KANTHARAJA, , LEED GA, CMAA-CMIT, OSHA 30

CMAA SoCal Scholarship Recipient

Driven by a passion for building, I bring a unique blend of architectural design insight and construction management expertise to project delivery. With experience leading and supporting projects across residential, commercial, and healthcare sectors exceeding \$5M, I excel at coordinating teams, streamlining workflows, and maintaining control over cost, schedule, and quality.

EDUCATION

University of Southern California Master of Construction Management (2023 - 2025)

Planning & Preconstruction, Construction Practices, Accounting & Finance, Project Controls, Marketing Strategy, Foundations of Real Estate, Consulting & Strategies, Negotiation & Deal Making, Innovation in Engineering & Design in Global Crisis

Reva University Bachelor of Architecture (2017 - 2022)

Architecture Design, Urban Planning and Landscape Design, Design Thesis, Building Structures, Cost Estimation, Interior design, Building Construction Materials, Sustainability in Design, Building Services, Geotechnical & Foundation Systems, Structural Analysis.

MAJOR MILESTONES

ACADEMIC WORK

TECHNICAL SKILLS

Member: SoCal CMAA, ASCE, AACE, USC ITE
Certifications: OSHA 30, Procore, CMAA-CMIT, LEED Green Associate, Bluebeam
Software: AutoCAD, Revit, BIM, Primavera P6, Bluebeam, PlanSwift, Microsoft Office, CADD, MicroStation, Arc GIS, CAFM
Tools: RFIs, Submittals, RFP, Cost Estimation, Cost & Schedule Analysis, BOQs, CPM Scheduling, QA/QC Management, PCO
Project Management: Leadership, Value Engineering, Risk Management, Procurement, Negotiation, Critical thinking
Real Estate and Finance: Legal Foundations, Debt & Equity Investment, Financial Forecasting

CO CURRICULAR

USC Wildfire Relief (2025): facilitated crisis response during the Los Angeles wildfires by connecting affected students and residents to emergency housing, food, and recovery resources.

Clean Air for Families (USC Viterbi x Families Forward): Designed and distributed DIY MERV-13 air filters for wildfire-affected kindergartens and families in Pasadena, increasing indoor air quality and community resilience.

Wildfire Shelter Volunteer (2025): Assisted displaced families with shelter setup, food distribution, and logistics coordination to ensure safety and comfort during crisis.

Children's Booney Island Expo Park(2023-2024): Helped organize, set up, and supervise event stalls and administrative operations for a community children's fair, facilitating public engagement and education.

EXPERIENCE

Project Coordinator

October 2024-December 2025

USC Facilities Planning and Management, Los Angeles, CA

- Acted as the primary coordination hub between resident assistance, technicians, vendors, and supervisors, maintaining clear communication and smooth operations across healthcare, hospitality, & facility services
- Supported cost control by reviewing vendor invoices, verifying quantities, and reconciling expenses against approved scope while coordinating maintenance and small capital projects by tracking scope, cost, and schedule to ensure timely delivery
- Streamlined project execution by identifying and resolving coordination issues in the digital twin model
- Tracked and facilitated RFIs and submittals to clarify technical requirements and prevent delays or rework
- Ensured QA/QC compliance through field follow-ups, reviewing documentation, and verifying adherence to OSHA safety standards and project performance requirements for technicians and contractors

Design Project Manager

December 2022-November 2023

Phantom Hands LLP, Bangalore, India

- Directed the full lifecycle of 10,800 sq. ft. of a \$950k design bid build multilevel condominium, including a landscape project from preconstruction to execution, developing detailed drawings, schedules, cost estimates, and supervising bidding and vendor selection to align design intent scope within budget
- Executed value-engineering solutions such as IPS concrete flooring to enhance durability and reduce maintenance costs, while designing a concrete-M-sand-limestone mesh wall system improved acoustics
- Supervised construction & MEP operations, ensuring safety, quality, & schedule through inspections & QA/QC enforcement
- Optimized BIM workflows for 3D coordination and clash detection and developed CPM schedules in Primavera P6, improving design-to-field coordination and project delivery efficiency
- Updated onsite progress reports by filing change order reviews, performing quantity takeoffs, drafting RFIs & submittals
- Directed coordination across 20+ subcontractors, sequencing activities, tracking progress against schedule milestones, and mitigating delays to protect cost and timeline performance

Associate Project Manager

January 2021-November 2022

AARDE Construction & Designer, Bangalore, India

- Coordinated with architects, engineers, and contractors on residential and commercial design-build, IPD projects totaling \$3million, controlling complete project lifecycles while upholding integrity, ethical standards, and quality delivery
- Led business development and preconstruction efforts, acquiring new clients, preparing RFP, and performing budgeting and feasibility analyses to align scope, cost, and timelines, securing major projects
- Led 24,300 sq.ft. \$2.6 Million motorcycle service facility, collaborating with architectural, structural, and MEP teams to convert a bare shell into an integrated workshop, office space, restaurant, with optimized spatial planning
- Managed and coordinated OEM equipment integration into facility systems, directing procurement and construction execution for a service station project while developing equipment layouts and shop drawings
- Collaborated with suppliers and subcontractors, resolved on-site issues, interpreted technical specifications, and supported project delivery within budget and 15 days ahead of schedule
- Led design and construction for a \$300K multifamily project, optimizing MEP/structural integration for energy efficiency and implementing tracking systems to resolve field conflicts and accelerate schedule performance

Construction Project Management Internship

January 2020-December 2020

Indianstory Studio, Bangalore, India

- Created and managed AutoCAD & Revit drawings for residential, commercial, and hospitality projects valued at over \$1.8M, developing design concepts, presentation sets, and coordinating revisions with the principal architect, clients, & consultants
- Led end-to-end of a 4,000 sq ft Eye & Dental Hospital, translating the client's vision into efficient, safe, and patient-centric layouts while securing permits and ensuring ISO-compliant healthcare standards
- Collaborated with senior architects and consultants to develop zoning medical equipment layouts, ensuring seamless coordination across MEP systems within spatial constraints. Prepared BOQs, bid packages, carpentry details, and cost analyses to support contractor selection and improve budgeting accuracy
- Tracked RFIs & submittals across stakeholders, revamping coordination, reducing conflicts by 20%, ensuring QA/QC standards
- Assisted principal architect in design and documentation of a 2-acre boutique resort, preparing detailed drawings, FF&E layouts, and interior elevations for guest rooms, restaurant, and public areas
